

## **2022-23 OUTREACH CHROMEBOOK/iPAD AGREEMENT**

### ***General Overview***

Each student will be assigned a Chromebook for educational use at school and at home. The device will remain with the student and will be returned at the end of each school year. Parents/Guardians have the right to elect to have their students check the device in at the end of the day to the High School Library and check out the device at the beginning of each school day. Academic need should be considered when selecting the "check-out" option since missing a Chromebook at home may impact a student's ability to work on homework.

### ***Filtering and Monitoring***

The District filters the online content utilizing filtering software at school and at home. Objectionable content is determined locally.

As a user of the Tonasket School District network, communications on the network are public in nature, and therefore general school rules for behavior and communications apply and should be in support of the educational process. No student should have any expectation of privacy when using the district's network.

Inappropriate use of the network, internet, and/or email may result in your student's loss of privilege to use these educational tools, as well as other disciplinary action and/or prosecution, if appropriate.

- A. Filtering is not a guarantee that 100% of inappropriate content will be blocked. Each student is to be responsible for his/her use of the internet and avoid objectionable sites;
- B. Attempts to bypass filtering or to hide internet activity is prohibited and will result in disciplinary action;
- C. Student email and Google Drive accounts assigned by the district are filtered and monitored.
